Professional Summary

- Creative and results-driven Flutter Developer with expertise in designing and delivering cross-platform mobile applications. Developed scalable solutions that enhanced user engagement by 40% and streamlined client workflows. Skilled in state management, API integration, and optimizing app performance to exceed project expectations.

Education

Indian Institute of Information Technology Kottayam   **2021 − 2025**
Bachelor of Technology (B.Tech) in Computer Science — CGPA: 7.30   *Kottayam, Kerala*

Sri Chaitanya Techno School   **2021**
12TH Percent: 91.8   *Bangalore, Karnataka*

Technical Skills

- **Programming Languages:** C, C++, Java, Python, Swift, Dart
- **Technologies:** Flutter, Firebase, Dio, Provider, Bloc, GetX, SwiftUI
- **Tools:** Android Studio, IntelliJ, VS Code, GitHub
- **Soft Skills:** Strong problem-solving ability, effective collaboration, and attention to detail.

Experience

Think42 Labs, Private Limited   **July 2024 − Present**
Flutter Developer Intern

- Spearheaded new feature development for the SICA app, improving app performance by **10%** and increasing user acquisition by **20%**.
- Developed and implemented deep linking, enabling seamless user navigation across various app modules.
- Optimized app release pipelines for both iOS and Android platforms, reducing deployment times by **15%**.
- Collaborated with cross-functional teams to troubleshoot and resolve bugs, ensuring a smooth user experience.

Gymo Wellness Solutions   **April 2024 − June 2024**
Flutter Developer Intern

- Revamped the ERP system's UI/UX, leading to a **40% improvement in engagement metrics** and enhanced user retention.
- Streamlined API integration, reducing backend response time by **20%**, improving app efficiency.
- Implemented RevenueCat SDK for managing in-app purchases, increasing revenue by **15%**.
- Designed and deployed data visualization dashboards to support real-time decision-making for administrators.
- Enhanced subscription flows and user onboarding, driving a significant uptick in paid user conversions.

Projects

Taxi Management App (In Progress)
Flutter, Dart, JSON

- Designed and developed a user-friendly mobile application to help taxi drivers monitor trip expenses and vehicle records.
- Incorporated dynamic odometer tracking and document upload functionality to enhance usability and compliance.
- Created an intuitive dashboard for visualizing trip summaries, saving users time in expense management.
- Optimizing data storage using local databases to ensure fast and offline accessibility for drivers.

Weather App   **GitHub Link**
Flutter, Dart, REST APIs

- Built a mobile application providing real-time weather updates with location-based services.
- Integrated REST APIs to deliver accurate and timely weather forecasts in a clean, modern UI.
- Implemented state management for smooth transitions between views and improved performance.
- Designed customizable themes, enabling users to toggle between light and dark modes.

Extracurricular Activities

Participated in coding competitions and hackathons, enhancing teamwork and problem-solving skills.

Attended workshops focused on mobile app development and modern frameworks.
